

Denver James Duran

Full-Stack Developer | Franchise Manager | Digital Marketing Associate

denver02.james14@gmail.com | +63 966 978 0902 | <https://denvie.online> | <https://github.com/DDuran19> | Valenzuela, Metro Manila, PH

PROFESSIONAL SUMMARY

Full-Stack Developer with a strong foundational background built *before* the AI era — and now leveraging it as a force multiplier. I architect and ship production-grade systems (custom POS platforms, multi-tenant SaaS, edge-native APIs) independently, from requirements to deployment. My pre-AI foundation means I understand *why* code works, not just how to generate it — so I can use AI tools strategically to maximize output while keeping costs minimal for clients. I can vibe-code when speed is the priority, but I bring the engineering discipline to know when not to. Equally comfortable in franchise operations, Meta Ads, and CRM — making me a rare hybrid of technical depth and business execution.

SKILLS

Frontend	SvelteKit, React, HTML/CSS, TailwindCSS, DaisyUI, shadcn-svelte
Backend	TypeScript, Python, Node.js, Hono.js, Cloudflare Workers & D1
Infrastructure	Cloudflare Pages, R2, Workers, D1 (edge SQL), PocketBase, PWA
Integrations	Stripe API, Shopify API, Commerce7 API, Google Maps API, Salesforce SFRA
Digital Marketing	Meta Ads Manager, CRM, Franchise Sales Funnels, Meta Business Suite
Tools & Others	Git, Jira, Canva, Dexie.js (IndexedDB), RBAC, Kotlin / Android

EXPERIENCE

Jr. Programmer

KDCI Outsourcing (CPO Outlets / CPO Power Tools) · Full-time · Oct 2023 – Present

- Execute daily & weekly banner updates across high-traffic e-commerce pages (homepage, deals, departments).
- Configure dynamic promotions and discount rules via Salesforce SFRA; perform QA regression testing.
- Coordinate with Site Merchandising, Ops & Web Dev teams for Black Friday, Cyber Monday, and brand campaigns.

Lead Full-Stack Developer (Freelance)

MMVMP via Upwork · Remote (Australia client) · Apr 2024 – Present

- Architected and built a full wine-themed multi-vendor platform from scratch using SvelteKit + Cloudflare stack.
- Integrated Stripe, Shopify API, Commerce7 API, Maps API, and session-based authentication.
- Grew from \$4.00/hr to \$8.04/hr via automated 15% quarterly raises — each earned without request.

Franchise Manager / Digital Marketing Associate

413 Double D Enterprises OPC · Part-time · Mar 2025 – Apr 2026

- Managed franchise inquiries across four Facebook pages; helped close 115+ franchise deals for Double D' Brew.
- Assisted onboarding of Grandma's Sandwich first 4 franchise stores.
- Ran Meta Ads campaigns, weekly content planning, and created landing pages for promotions.

Software Developer

413 Double D Enterprises OPC · Part-time · Mar 2025 – Apr 2026

- Built 413 Cafezinho Premium POS and Grandma's Sandwich POS — both solo, deployed on Cloudflare Workers + D1.
- Delivered internal tooling: inventory dashboards, reporting utilities, and admin panels replacing manual workflows.
- Implemented offline-first architecture (Dexie.js / IndexedDB) with automatic sync and zero data loss.

KEY PROJECTS

Grandma's POS System | SvelteKit · TypeScript · Hono.js · Cloudflare Workers + D1

Full franchise POS and inventory management system. Offline-first (IndexedDB), multi-tenant RBAC (30+ permissions), recipe-based stock deduction, real-time order lifecycle with chat & audit logs, payment verification with image upload. —

<https://grandma-pos.denver02-james14.workers.dev>

413 Cafezinho Premium POS | SvelteKit · TypeScript · Cloudflare Workers + D1

Complete digital ecosystem for a coffee brand — custom POS, e-commerce storefront, admin dashboards, and company-wide internal tooling. Mobile-first PWA with real-time order queue. — <https://413cafezinho.cafe>

413 Serene Glow | SvelteKit · TailwindCSS · shadcn-svelte · PocketBase · Cloudflare Pages

Fully responsive e-commerce platform for premium skincare. Custom email notification & retry system via PocketBase hooks and SMTP cron jobs. — <https://serene-wz9.pages.dev>

MMVMP Multi-Vendor Platform | SvelteKit · Cloudflare D1 / R2 / Pages · Stripe · Shopify API

Wine-themed multi-vendor marketplace with repository-service architecture, geofiltered vendor maps, subscription billing, and product/inventory sync across commerce platforms.

MolleyBolley Salon System | Python · SQL

Queue management, employee assignment, service tracking, and sales data extraction for a beauty salon. —

<https://github.com/DDuran19/MolleyBolley>

Simple Vanilla Login | TypeScript · CSS (no framework)

Session-based authentication with custom client-side routing — zero external libraries. — <https://simple-vanilla-login.vercel.app>

Instaprint | Kotlin · Android

Lightweight Android companion app that intercepts POS print intents via URI scheme for zero-confirmation thermal receipt printing.

EDUCATION

B.S. Secondary Education — Major in Physical Science | Pamantasan ng Lungsod ng Valenzuela | 2012 – 2016

Electronics Products Assembly | St. Peter Velle Technical Training Center | 2018
